“Peonies for Pleasure”

Price List for Fall of 1922

SPLENDID HARDY EVERYWHERE PEONIES “ARISTOCRAT OF FLOWERS”

THE wonderful improvements made during recent years in these old-fashioned hardy plants has brought them into renewed popularity. The gorgeous flowers, which rival the finest Roses in size, form and color, are produced in great abundance. After once being planted they require little care and attention, thrive anywhere, and are absolutely hardy even in the coldest climates; each year after planting they grow into greater value, producing more and more flowers. They are not troubled with insect pests. Try some of our fine Peonies, and see what grand flowers they are. Get it out of your head that there are only Red, White and Pink Peonies to illustrate at flowering time. People who visit our field will say, “I have Pink and White Peonies. I desire only Red ones,” but when they are shown the Pink and White, they invariably exclaim, “How grand! I have none like them.” There is as much difference in Peonies as there is in Roses.

We have found that divisions do not give the customer satisfaction; they have to wait too long for the plant to become established.

For this reason we are not offering any Peony this year under a one-year size.

The one-year plant is a plant divided and reset a year before. We do not advise our customers to divide any of these one-year roots if they want bloom the first year. We find that Peonies should not be divided more than once in three years.

If you want a profusion of bloom the first year, you will find the two and three-year plants will produce more bloom according to their age.

While our strong one-year roots will all bloom for you the first year, the two-year size is the best to buy; for having become established the first year from division, the growth is more than double the second year and the prices are only about one half more.
